Fair trade policy and sustainable safari:

*Our rate is incl. of all entrance expenses for tickets, taxes etc. Apart from that we want to stress that our staff and trackers are paid fair, not rock bottom minimum. What we pay is covering the tips safari people would usually hope to get. We consider this one of our initiatives to run responsible safari operations, eliminating the motivation to make safari a race to see wildlife due to the tips factor. Any further gratitude is your choice, not an expectation.*
